OBJECTIVE & PERSONAL STATEMENT

I would greatly appreciate to be able to see how life is inside a lab and the processes of scientific studies, I also would like to gain research skills within my education to become a clinical scientist after my graduation. Especially I am interested in Endocrinology, Bioinformatics and Neurophysiology.

I am sure that I will sustain my ambition and passion for learning and working in my whole life. Because I am aiming to be a researcher in future, being part of a scientific research and experiencing the lab environment as an intern is the opportunity that I am looking for.

EDUCATION

Mersin University Faculty of Medicine Doctor of Medicine, 4th Grade, GPA: 3,35 (77/100)	Mersin, TR 09/19 – Current
