OBJECTIVE & PERSONAL STATEMENT

I am a junior medical doctor with a strong interest in working in laboratory and contributing to scientific research. My long-term goal is to develop robust research skills and pursue a career as a clinical scientist while continuing to practice medicine. I am particularly drawn to pathology and microbiology, and I am motivated by opportunities which allow for clinical research. I am seeking a role where I can grow as both a clinician and a researcher, and actively participate in studies that advance medical knowledge.

EXPERIENCE

Universitätsklinikum Carl Gustav Carus Dresden / Dr. E. Balaian	Dresden, DE
Attended outpatient clinic sessions and inpatient ward visits in Hematology department and observed diagnostical lab methods like FACS, cytomorphology and cytogenetics.	07/24 - 08/24
Universität Ulm / Vettorazzi Lab	Ulm, DE
Learned lab techniques like PCR, cell culture, histological sectioning/staining, western blot and worked on mice towards glucocorticoids' role on inflammation.	07/23 - 08/23
SciLifeLab / Mardinoğlu Group	Stockholm, SE
Prepared a comprehensive proteomics report and analyzed Kallisto/DESeq2 data in R.	07/22 - 08/22

EDUCATION

Mersin University Faculty of Medicine	Mersin, TR
Doctor of Medicine, 6th Grade, GPA: 85.39/100	09/23 – 11/25
Universita' degli Studi di Pisa Facoltà di Medicina e Chirurgia	Pisa, IT
Doctor of Medicine - Erasmus Student	03/23 – 07/23
Mersin University Faculty of Medicine	Mersin, TR
Doctor of Medicine	09/19 – 02/23

SKILLS

- Basic Bioinformatics • Microsoft Office • Linux • PCR • Histological Sectioning • Cell Culture

LANGUAGES

- Turkish: Native • English: Fluent • German: Elementary
